A bit about me

I have a passion for sport and fitness. In my spare time I do personal training and run my own Sports Therapy business along with playing netball socially. Netball, swimming and rounders are my main sport's and I look forward to improving your knowledge of these sports next year. I will also be teaching Science again this year, my Sports Therapy degree means that Biology especially Anatomy and Physiology is my strength. My role as your tutor is to help and support you in any way that I can. I look forward to meeting you all in September.
