A GUIDE TO CAREER OPTIONS 2022

For school and college students

At PwC, find where you belong

Traditionally, there's only been one route when school comes to an end.
University. Degree. Career. But things have changed.

Gain valuable work
experience whilst
at school or college

Get ahead in your career
on our School and College
Leaver programmes

No matter which path you choose, there are no limits
as to how far you can go and how much you can achieve.

Go to uni and
give your career
a Flying Start

Join us
whilst you're
at university

Our school leaver programme, just like our graduate programme, offers structured career development as well as learning on-the-job, and study towards real business qualifications. And on one of our Flying Start degree programmes, you'll get the opportunity to go to uni and start your career with us at the same time.

So whichever path leads you to us, and we have a few, we'll take your career further.

Join PwC. We'll help you realise your potential.

WELCOME TO YOUR GUIDE TO CAREER OPTIONS 2022

No idea whether you want to do an apprenticeship, go to university or pursue TikTok fame when you leave school or college?

It's a BIG decision to make at 16, 17, 18... So we've put together this guide to help you better understand and map out your future.

Inside, you'll find everything you need to know about the career options available to you, and how to get there.

The guide also features the **Top 100 Employers & Top 50 Training Providers 2022**, with the inside scoop on what it's really like to work for each company.

Voted for by 1000s of apprentices across the UK, these companies are A-listers in the world of apprenticeships - and they're looking for young people like YOU to join them.

So, let's get started...

Where can you help build for a better society?

Naturally Skanska

We have apprenticeships available in:

- Civil engineering
- Quantity surveying
- Digital technology solutions and data analytics
- Construction management
- Mechanical and electrical engineering
- Business administration/document control

Why is Skanska the natural choice for you?

Skanska, one of the world's leading project development and construction groups, is an inclusive and responsible business that is helping to build a better society.

Known for working on major projects such as HS2 – the UK's new high-speed railway, we are building, upgrading, and maintaining the country's infrastructure for future generations.

We hold regular work experience insight days where you can meet with us and find out more about what we do. Get in touch for more information emerging.talent@skanska.co.uk

Help us build for a better society: skanska.co.uk/careers

REGIONAL AWARDS

PETER MUCKLOW, DIRECTOR OF APPRENTICESHIPS, EDUCATION AND SKILLS FUNDING AGENCY

Apprenticeships are an exciting option, offering the opportunity to get high quality training, hands-on experience and develop transferable skills in a range of jobs. They are open to everyone from school leavers, people progressing in their careers and complete career changers.

An apprenticeship is a real job where you learn, gain experience and get paid. You're an employee with a contract of employment and holiday leave. By the end of an apprenticeship, you'll have the right skills and knowledge needed for your chosen career.

New apprenticeship standards are available all the time, and there are hundreds of apprenticeships to choose from. Some even include a qualification, like a degree.

There really is an apprenticeship for everybody and the variety and richness of apprenticeships on offer means they are becoming a more appealing option for individuals and employers alike.

There are lots of benefits to being an apprentice, from getting paid and training at the same time, with at least 20% of your time spent in 'off the job'

training - often at a college, university or with a training provider.

Apprentices benefit from receiving the training, needed by industry, whilst being on the career path of their choice. Recent data shows that following completion of their apprenticeship, 91% of learners were still in sustained employment.

An apprenticeship can take between one and six years to complete, depending on the apprenticeship standard chosen, the level of apprenticeship and any previous experience an apprentice brings. There are apprenticeships available all over England, at companies large and small, in a wide range of industries, from local organisations to large national brands.

Apprenticeships offer the opportunity to chase dream jobs, kick start amazing careers and reach your potential.

Visit www.apprenticeships.gov.uk to find out more, search and apply for apprenticeship vacancies:
www.apprenticeships.gov.uk/apprentices

Peter Mucklow,
Director of Apprenticeships

A NOTE TO PARENTS

Young people's priorities have changed since Covid-19, with 75% now considering an apprenticeship to future-proof their career.

The opportunity to bypass £45,000 of student debt and get a paid job straight out of school or college has become too good to pass up.

So the more you know about apprenticeships, the better.

HOW MUCH WILL MY CHILD BE PAID?

All apprentices are paid the National Minimum Wage of £4.30/hour or above. According to the 1000s of reviews on [RateMyApprenticeship.co.uk](https://www.ratemyapprenticeship.co.uk), the average salary for an apprentice is **£16,184 a year.**

WHO FUNDS APPRENTICESHIPS?

Every programme is co-funded by the government and the employer, using the Apprenticeship Levy that was introduced back in 2017.

DO APPRENTICES GET STUCK MAKING THE TEA?

Apprentices have to cover a wide range of tasks in order to successfully complete the programme. As such, employers are obliged to provide practical and relevant work that supports their professional development.

IS MY CHILD GUARANTEED A JOB AT THE END?

Almost! 90% of apprentices go into work or further training after completing an apprenticeship, and two-thirds get hired permanently by their employer.

RateMyApprenticeship.co.uk is committed to inspiring young people to reach their career goals, whether that starts with an apprenticeship or university.

Armed with this **Guide to Career Options**, you too can do everything within your power to help your child make an informed decision about their future.

Click/scan the QR code to take a closer look at apprenticeships.

GET YOUR FACTS STRAIGHT

There's been a lot of hearsay about apprenticeships over the years. We don't do rumours, so here's the real tea...

**I HEARD
THAT TOO**

**THAT'S NOT
TRUE**

**NO
WAY!**

**WAIT,
WHAT?**

**I DID NOT
KNOW THAT!**

**THAT
CAN'T BE
RIGHT?**

HEAR IT FROM A REAL-LIFE APPRENTICE...

"Troup Bywaters + Anders is all about bringing young people through the business with the right training and support to be the best they can be. Not only am I recognised as a key part of the team and the business, I have a clear and structured career path to success."

Basant, Mechanical Engineering Apprentice at Troup Bywaters + Anders

MYTH

Apprentices don't earn very much.

FACT

An apprenticeship is a one-way ticket to financial independence.

WHY?

The average salary for an apprenticeship is **£16,184 a year**. Imagine what you could spend all that hard-earned cash on. You could start saving for a house... or blow the whole lot on Funko POPs.

MYTH

Apprenticeships only exist in trade industries.

FACT

Apprenticeships are now available in 100s of different career paths, including Nursing, Digital Marketing and even Beekeeping.

WHY?

Because tons of exciting companies, like AstraZeneca, Booking.com and PwC, now hire apprentices fresh out of school or college. (for this year's Top 100 Apprenticeship Employers.)

MYTH

Apprenticeships are for those who don't do well at school.

FACT

Apprenticeships are open to anyone who is 16 or over, and not in full-time education.

WHY?

There are 7 different levels of apprenticeship, and which one you do will depend on the qualifications you leave school/college with. Some require certain A Levels or GCSEs, whilst work experience will do for others.

MYTH

An apprenticeship isn't a proper job.

FACT

Apprentices get paid to work on projects that contribute to the business.

WHY?

Apprentices are given real responsibility from day one, working alongside experienced professionals to develop the skills they need to thrive in the industry. Sounds like a job to us.

MYTH

Most apprentices are men.

FACT

It's a 50/50 split between the number of men and women starting apprenticeships each year.

WHY?

More women started an apprenticeship in 2018/19 than men! (50.1% of them to be exact.) The gender gap is even closing in traditionally male-dominated sectors like engineering and construction.

MYTH

An apprenticeship won't lead to a full-time job.

FACT

Apprentices spend 3-6 years gaining the relevant experience and qualifications for their line of work. So they tend to get hired quickly.

WHY?

90% of apprentices stay in employment after finishing their apprenticeship, with many working their way up to the boardroom. An impressive 30% of Rolls-Royce's senior UK managers first joined as apprentices!

Schneider Electric APPRENTICESHIP PROGRAMME

Do you want to join an AWARD-WINNING Apprenticeship Programme?

Are you ready to obtain a qualification whilst gaining on the job training and earning a salary? Join our Schneider Electric Apprenticeship and be part of a programme in which you'll get to study towards and achieve the relevant qualifications over a part-time programme whilst learning on the job. You will embark on a series of placements working alongside our expert teams, while making a real contribution to an advanced engineering and technology global organisation. In detail, we provide full training which includes an induction and a personal development programme. Our programme offers both technical and non-technical pathways.

We offer the following types of **APPRENTICESHIPS:**

1 ADVANCED APPRENTICESHIP

Level 3 Extended Diploma Qualification. Candidates will need 5 GCSE's Grade 4/C or above, including Math's, English and Science.

2 HIGHER APPRENTICESHIP

Level 4/5 Higher Qualification - HNC/HND- Candidates will need 2 A-levels Grade C and above or equivalent.

3 DEGREE APPRENTICESHIP

Level 6 Degree Qualification. Candidates will need 3 A-levels Grade C and above or equivalent.

BE PART OF OUR #SEGREATPEOPLE

Schneider's purpose is to empower all to make the most of our energy and resources, bridging progress and sustainability for all. We call this Life Is On. Our mission is to be your digital partner for Sustainability and Efficiency.

We are the most local of global companies. We are advocates of open standards and partnership ecosystems that are passionate about our shared Meaningful Purpose, Inclusive and Empowered values.

APPLY NOW!

EarlyTalent.UKI@se.com

HOW TO CHOOSE THE RIGHT COMPANY

If you dazzle on your apprenticeship, your employer might offer you a full-time job. So it's worth finding one you want to go the distance with. Deciding what you want from your career will help narrow the search...

DO YOU WANT TO WORK FOR...

A BIG BRAND?

Household names will always look good on your CV. Career paths are clearly mapped out, with plenty of room for progression. (Companies prefer hiring from within, so once you're in - you're in.)

Large corporations tend to hire specific people to do specific jobs, allowing you to focus on one area of the business. This might mean less variety in your work, but equally, more structure.

OTHER THAN THE JOB ITSELF, WHAT MATTERS TO YOU MOST?

Free lunch? A company bowling league? Flexible working hours? Perks indicate how much a company invests in their employees' health and happiness.

Keen to work somewhere that shares your values? Decide what you genuinely care about. Sustainability? LGBTQ+ support? Gender equality? Then look for companies that do too.

Or if working for a company that positively impacts society is a priority, focus your search on those with a strong sense of Corporate Social Responsibility.

PwC, for example, encourages its employees to give back to the local community through the option to volunteer during working hours for up to 6 days a year!

OR

A SMALL BUSINESS?

Smaller companies are best suited for those who value autonomy, flexibility and creative freedom. You'll need to be prepared to take responsibility and use your initiative.

The fewer the employees, the bigger variety of tasks you'll work on. (And the easier it will be to see what impact your work has.) You'll build a diverse skill set and forge your own career path.

Click/scan to hear what it's really like to work for a particular company, from their apprentices.

Who are your top 3 dream companies to work for?

1 _____
2 _____
3 _____

APPRENTICESHIPS

After finishing school or college, most students will either go to university, or do an apprenticeship. Both are marvellous options, but which one is right for YOU?

1 LEAVE SCHOOL OR COLLEGE

Anyone over the age of 16 can start an apprenticeship.

2 START AN APPRENTICESHIP

Get on the career ladder early and work, learn and earn all at the same time. (FYI, an apprenticeship really is a job, so that means working 9-5, Monday to Friday.)

3 LIVE AT HOME OR MOVE OUT

Many companies pay their higher apprentices enough to rent their own place. The average salary for levels 4/5/6/7 is £23,987 a year!

4 GET WORK-READY

Throughout your apprenticeship, you'll pick up the technical know-how and soft skills required to do your job well. Making you extremely employable.

5 GAIN PROFESSIONAL QUALIFICATIONS

Apprenticeships offer qualifications that are equivalent to five GCSEs, all the way up to a Master's degree. (Remember, you don't have to go to university to get a degree!)

6 MEET NEW PEOPLE

"I have regular catch ups with the other apprentices, which has helped me to build a rapport and develop friendships. It's great as you can swap notes and be on the journey together. It's reassuring to have that support."
Megan, Fast Track Management Apprentice at Travis Perkins

7 ENTER THE BIG WIDE WORLD

If you shine on your apprenticeship, there's a good chance your employer will want to keep you on permanently. If not, others will snap you up.

VIS UNIVERSITY

1

LEAVE SCHOOL OR COLLEGE

There are 130 universities in the UK and 1000s of courses to choose from. Anyone with A Levels, T Levels or a BTEC can apply.

2

START UNIVERSITY

Gain some real independence away from home, whilst studying for a degree in your chosen subject. The downside? It'll set you back around £45,000.

3

LIVE IN HALLS

Surrounded by people your own age, your first year is prime time for making new friends, exploring the area and eating Pot Noodles 3x a day.

4

JOIN SOCIETIES

Meet people who share your niche interest in Ghost Hunting or Taekwondo, and beef up your CV with sought-after skills like leadership and communication.

5

MOVE INTO A HOUSE

Experience the highs and lows of living with friends; from cooking meals and binge-watching Parks & Recreation together, to arguing over washing up and bills.

6

GET WORK EXPERIENCE

Some degrees offer placement years, or the opportunity to study abroad. Otherwise, you can easily fit an internship or two into the breaks between semesters.

7

ENTER THE BIG WIDE WORLD

350,000 graduates leave university each year, so a degree alone won't be enough to guarantee you a job. Apply early and fill your CV with relevant experience to stand out.

Work Ready Virtual Experience

Build the skills you need to take the world of work by storm, in your pyjamas.

★ RATEMYAPPRENTICESHIP

Calling all Years 10-13, this **FREE** online programme is for you!

Got a few hours to spare this weekend? Scale up your CV by developing the exact skills companies want in 2022, including...

- Resilience
- Self-reflection
- Personal branding
- First impressions
- Online networking

*The programme is self-paced. So you can learn in your own time and have a break, have a KitKat, whenever you need.

Click/scan to register NOW.

THE LOWDOWN ON T LEVELS

T Levels were introduced in 2020 as a post-GCSE qualification that's designed to take your future to the next level. It's been a year and a bit since they launched. So what's changed?

WHAT ARE T LEVELS?

Equivalent to three A Levels, a T Level takes two years of full-time study to complete. It's a stepping stone into skilled employment, further study OR a higher apprenticeship.

HOW DO THEY WORK?

T Level students spend **80%** of their time in the classroom, learning the relevant theory. And the other **20%** putting this into practice on a 45-day industry placement.

To get your certificate, you'll need to complete the technical qualification and industry placement, plus have passes in English and Maths at Level 2/GCSE.

WHY CHOOSE T LEVELS?

- Get real workplace experience on your CV
- Develop the skills employers are looking for
- Gain nationally-recognised qualifications
- Pick up UCAS points to apply for university

WHAT'S CHANGED?

Exciting news, as there are now 10 subjects to sink your teeth into, including...

- Digital Business and Support Services
- Digital Production, Design and Development
- Education and Childcare
- Healthcare Science
- Onsite Construction

Reckon T Levels sound like the best thing since holes in cheese? Click/scan to find out more...

Choose a career that matters

Our apprenticeships give you the chance to take part in a variety of work, learn from the experts and achieve an industry-leading qualification while you earn.

We want passion and integrity, as well as ambition and aptitude – so visit www.fca.org.uk/careers/early-careers to find out more and register your interest.

TRAINING PROVIDERS EXPLAINED

Apprentices spend 80% of their time at work, learning on-the-job. The other 20% is for off-the-job training, e.g. classes, skills workshops or mentoring.

That's where the training provider comes in. They play a key role in helping apprentices ace their professional qualifications.

There are four main types...

1 FURTHER EDUCATION COLLEGES

Just like a sixth-form college but in a more relaxed, adult environment. You'll call the teachers by their first names and take responsibility for your own learning.

2 UNIVERSITIES

Universities and other higher education institutions act as training providers for level 4, 5, 6 and 7 apprentices.

3 INDEPENDENT TRAINING PROVIDERS

Employers that can't deliver training outsource it to these organisations. They only train apprentices, unlike colleges where apprentices mix with full-time students.

4 IN-HOUSE TRAINING PROVIDERS

Large employers like BAE Systems, Barclays and Virgin Media have their own tutors and training facilities.

HOW THEY SUPPORT YOU

Your training provider is there to ensure you receive...

- an induction when you begin your apprenticeship
- a detailed training plan
- regular progress reviews
- the same resources and support as full-time students

THE APPRENTICESHIP APPLICATION JOURNEY

So you've decided you want to do an apprenticeship. Now to get down to applying! The process usually goes something like this...

1

APPLICATION FORM

The first step is providing your personal details, education and work experience. You may have to answer questions about your strengths and interests too.

2

CV

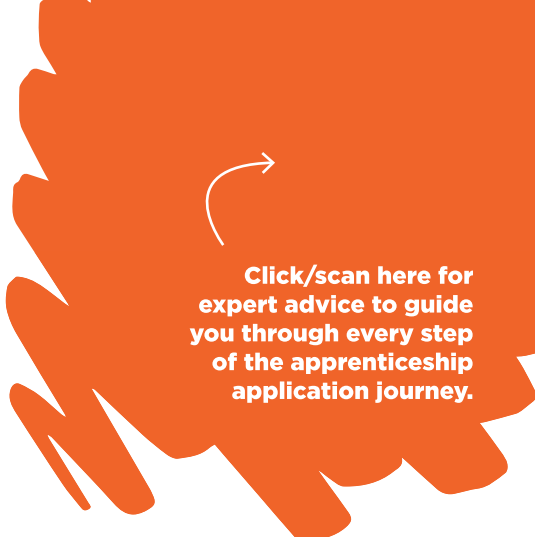

CVs are kind of like Tinder profiles. Except they get you interviews - not dates. Match yours up with the job description to get employers to swipe right.

3

COVER LETTER

You have one page to sell why you want the job, and why you're the right person for it. Back yourself up with real examples where you have used the skills they're looking for.

Click/scan here for expert advice to guide you through every step of the apprenticeship application journey.

4

PSYCHOMETRIC TESTS

These online tests measure your suitability for a job based on your skills, knowledge and personality. Practice makes perfect, so turn over to try a few example questions...

5

INTERVIEW

You've made it to the face-to-face interview. You're almost there! All you have to do now is showcase your skills in person (via video, phone or IRL).

6

ASSESSMENT DAY

A day of tasks and activities hosted at the company's office, or online. Expect the likes of ice-breaker exercises, group projects, presentations and 1-2-1 interviews.

PSYCHOMETRIC TESTS

You might have to complete psychometric and other online tests when you apply for an apprenticeship.

These sound a bit like something from an episode of Black Mirror, but in reality, they're not that scary. Employers use them to figure out if you have the right skills and personality traits for the job.

Here are some practice examples to help you prepare...

(Most psychometric tests are designed so that only **1-2%** of candidates answer all of the questions correctly. So don't worry if you can't answer them all.)

1

How many cubes are there in the figure below?

A: 19 B: 20 C: 21

2

Which shape comes next in the sequence?

A

B

C

D

E

3

Find the two statements that together prove that Cindy has brown hair.

- 1: Cindy has curly hair
- 2: Sarah has brown hair
- 3: Sarah is 16 years old
- 4: Cindy's hair is the same colour as Sarah's
- 5: Sarah has straight hair

A: 1 & 2 B: 2 & 4 C: 1 & 5 D: 2 & 3 E: 1 & 4

4

On the planet Thone XL3...

HOWDENS

Start your career

The UK's number one trade kitchen supplier is looking for people who want to start a career with an apprenticeship.

Enhance your skills and become qualified as part of a local team, whilst forging a career with a supportive, successful and growing business.

A friendly working culture, competitive salary and access to multiple benefits, are just a few reasons why we have been named as one of the top 25 Best Big Companies to work for.

Find your role and apply today at careers.howdens.com

**CUSTOMER SERVICE · WAREHOUSE · SALES · DESIGN
IT · MANUFACTURING · ENGINEERING · LOGISTICS**

WHAT HAPPENS NEXT?

We've covered your options and everything pre-application, but what happens after you've applied for an apprenticeship?

“I didn’t get the job. What should I do?”

Rejection is rough, but your career is far from over.

Beyoncé lost the “Star Search” talent show in 1993. Fast forward to now, she’s easily one of the most influential women in the world.

“I’ve been invited to an interview!”

Always do your research. It’ll show if you don’t know anything about the company or role you’ve applied for. So read the job description carefully and arrive with questions.

It’s clichéd, but be yourself. Interviewers want nothing more than to get to know the person behind the CV. Niche hobbies and all.

“I got the job!”

CONGRATS. Now the real work begins. As your first day looms, you’ll need to do as much prep as you humanly can.

Keep on researching the company. Buy all the notepads and pens. Plan your route to the office. Like Scar sang in *The Lion King*, it pays to “be prepared!”

“I haven’t heard back from an apprenticeship I applied for.”

It happens, don’t take it personally. On average there are 39 applicants per vacancy, so it can take employers a little time to sift through them all.

Instead, send a short and polite email a couple of weeks or so after applying to follow up. This will also show initiative and hunger. Employers LOVE that.

There are 100s of roles you can apply for RIGHT NOW on RateMyApprenticeship.co.uk. Click/scan here to continue your search.

BEING SOCIAL MEDIA SAVVY

Social media is #1 for staying in the loop with pals, shopping inspiration and scrolling endless videos of animals playing dress-up.

**But did you know it can also help you get a job?
Here's how...**

ALWAYS BE PROFESSIONAL

Employers use social media to advertise their roles and research candidates. Your public profiles are your online personal brand, so they need to be clean and professional. To be safe, you can always make your accounts private.

INTERACT WITH COMPANIES

Don't be afraid to interact with companies on their social platforms. In fact, they want you to! It's a perfect opportunity to network without meeting face-to-face, so follow the companies you're interested in and be proactive in reaching out.

We post jobs, careers events and competitions on our socials. Follow us to get involved.

IG INSTAGRAM

Brands use Instagram to offer an unfiltered look at their team, offices and social events. If you want to know whether you're the right fit for a company, give them a follow.

🎵 TIKTOK

Loads of brands are jumping on TikTok trends to show off their personality and culture in a creative way, and reel in potential candidates. Ryanair, Gymshark and McDonald's are all getting in on the fun.

f FACEBOOK

Most companies still use Facebook to share jobs, advice and competitions. It's also a really useful tool for getting in touch with employers because of the high frequency of posts and swift replies to comments.

in LINKEDIN

Consider setting up a profile on LinkedIn to start connecting with employers. Try coming up with a catchy profile headline like 'Aspiring Software Developer', rather than just 'A Level Student', to get their attention.

SIDE HUSTLES

Side hustles were all the rage during 2020. In fact, there was a whopping 72% increase in 16 to 20-year-olds registering as sole traders...

Dream of building your own empire from the ground up?
Or just looking to make some extra cash at the weekend?

HERE ARE 5 REASONS TO START A SIDE HUSTLE

1

Learn how to run a business

2

Channel your creative talent

3

Do something useful with your free time

4

Impress future employers with your experience as a CEO

5

Become financially independent (if your business takes off!)

STUCK FOR INSPIRATION?

You can turn almost anything into a moneymaker these days.

Vlogging, coding, customised clothing, dog walking, pet portraits... you name it.

Whatever you decide on, make sure it's something you'll enjoy. Running your own business is hard. Horcrux-searchingly hard. So you need to be passionate about it.

DID YOU KNOW?

Some of the most successful companies in the world started out as side projects. Nike's founder, Phil Knight, started off selling Japanese running shoes out of his car while working as an accountant. Now he's worth \$34 billion.

24-year-old graduate Gabrielle started by baking cakes for friends and family. They loved them so much she launched her own company, **QuashCakes**, back in 2018. Now her cakes are sold across the UK, and she's even made one for Loose Women's Nadia Sawalha!

YOUR NEXT STEPS

The following pages contain handy overviews of every option available to you after school or college.

(Except how to become the next Charli D'Amelio and get 127 million TikTok followers. That one you'll have to figure out yourself.)

PROGRAMME

LEVEL 2

INTERMEDIATE

APPRENTICESHIP

DO YOU KNOW?

According to reviews submitted by apprentices on RateMyApprenticeship.co.uk, the average salary for an intermediate apprentice was £15,947 in 2021.

First things first, what is an intermediate apprenticeship?

Designed primarily for 16 year olds, intermediate apprenticeships are the first rung on the apprenticeship ladder. They are a brilliant way to break into an industry straight out of school or college.

How do they actually work?

Intermediate apprentices split their time between working for an employer and studying towards professional qualifications at a college or training provider.

Each programme is organised differently. You might spend one day a week studying at college and the other four days at work. Or you might work on a full-time basis and be released for study periods throughout the year.

Why do an intermediate apprenticeship?

As well as paying a decent wage, these entry-level schemes will help you gain the soft skills you need to confidently enter the workplace.

During the apprenticeship, you'll work towards professional qualifications that are recognised across your industry. These are equivalent to 5 GCSE passes graded at 9 to 4 (A* to C), and can be used to apply for an advanced apprenticeship or find permanent employment.

What are the entry requirements?

These vary from scheme to scheme, but most require you to have two or more GCSEs graded at 9 to 4 (A* to C) under your belt. An equivalent qualification, such as a traineeship, will also do the trick.

Some companies will accept applicants without these grades if they have relevant work experience. If that is the case, expect to be tested on your numeracy and literacy skills.

[Click/scan for the full lowdown on Intermediate Apprenticeships.](#)

CASE STUDY

LEVEL 2 INTERMEDIATE APPRENTICESHIP

Who: Ben

From: Howdens

Position: Supply Chain Warehouse Operative Apprenticeship

WHAT BEN THINKS OF HOWDENS...

I felt that this would be a great place to start as the role would allow me to learn more about Howdens and what they produce and supply.

“Don’t overthink how big the jump is, take each day as it comes because I thought it would be super serious and daunting but school and work life isn’t very different, there is a fun side to both as well.”

Within the Warehouse Apprenticeship your main responsibilities are very varied, including stock control, unloading livery trailers, line checking stock, picking orders for customers,

loading deliveries, keeping a clean and tidy warehouse (health and safety), and making sure 4 x 4 rules are adhered to at all times whilst unloading and loading livery trailers.

I find the warehouse environment calm, quiet and relaxing and I can concentrate on all aspects of my role. I also like the physical aspect as it’s healthy exercise!

Don’t overthink how big the jump is, take each day as it comes because I thought it would be super serious and daunting but school and work life isn’t very different, there is a fun side to both as well.

Know your warehouse and where things are (use the map of the warehouse that’s used for stock-taking), make sure everything is put in the right place. Have next day deliveries ready the day before and ensure everything is clear and tidy before you go home. If you do the above you can get your line check and any other job done with ease.

www.rma.digital/howdens

DO YOU KNOW?

Advanced apprenticeships were the most reviewed programme on RateMyApprenticeship.co.uk last year, with a staggering 2,087 reviews submitted.

What is an advanced apprenticeship?

These splendid programmes are the next step up from intermediate apprenticeships. They're a great fit for students looking to advance their careers after finishing GCSEs, A Levels/T Levels or Level 2/3 apprenticeships.

How do they actually work?

Advanced apprenticeships combine on-the-job training with studying for nationally-certified qualifications. These qualifications (NVQs, BTEC diplomas and HNCs) are generally considered to be equivalent to two A Levels. Programmes last around 24 months, giving you plenty of time to soak up all that knowledge.

Why do an advanced apprenticeship?

By the time you finish, you'll have at least two years of relevant work experience, a bunch of practical skills and a few qualifications on your CV too. All of which make you every employer's dream candidate. In fact, an impressive 90% of apprentices go into work or further training after completing their apprenticeship.

Did we mention you get paid too? The current National Minimum Wage for apprentices aged 16-18 is £4.30 an hour, with many employers offering heftier pay packets to tempt top students.

What are the entry requirements?

Employers usually want you to have either completed an intermediate apprenticeship or to have qualified with a certain number of GCSE passes, including English and maths.

Click/scan for everything you need to know about Advanced Apprenticeships.

CASE STUDY

LEVEL 3 ADVANCED APPRENTICESHIP

Who: Holly

From: Tech Data

Position: Qualified Internal Sales Apprentice

WHAT HOLLY THINKS OF TECH DATA...

I chose the IT Technical Sales Apprenticeship because I was very indecisive about going to university.

“The advice I would give for a smooth transition from school into work is making sure you understand the values and culture of the company you are applying for, and what will be expected from you.”

I wanted to go into work and make money, but I still wanted a career that I was interested in and that I could see myself doing for a long time. So I thought doing an apprenticeship

would be the best thing as I am gaining valuable on-the-job experience as well as learning.

The first thing I do when I get to work is proactively start planning my day. I make sure I am up-to-date with emails from the day before, check for any urgent requests and log into our customer relationship management tool.

Within the IT Technical Sales Apprenticeship role my main responsibilities are making sure I am on time, hitting daily call statistics and making sure my pipeline is updated. Other responsibilities are making sure my apprenticeship work is done on time and to the best standard.

The aspect of my role I enjoy most is prospecting customers. Calling customers and discussing their needs, finding new opportunities and putting my knowledge from working with other areas of the business into play. Being able to advise and help my customers whilst delivering excellent customer service.

www.rma.digital/techdata

PROGRAMME LEVEL 4/5 HIGHER APPRENTICESHIP

DO YOU KNOW?

The average salary for higher apprentices was £23,987 in 2021 (based on reviews submitted by apprentices on RateMyApprenticeship.co.uk).

What is a higher apprenticeship?

They're a match made in heaven for students looking to fast-track their career after finishing A Levels/T Levels. Award-winning employers like BBC, Santander and Goldman Sachs all offer higher apprenticeships in order to find and shape their future leaders.

How do they actually work?

Higher apprentices work for a company full-time, developing the skills they need to launch a career in that industry. This is coupled with studying towards relevant qualifications; including a Level 4 (or above) competence qualification and a knowledge-based qualification (a Higher National Diploma or foundation degree).

Each scheme is structured slightly differently, with some companies sending you off to study with a training provider or college for one day each week. Others organise study breaks intermittently throughout the year.

Why do a higher apprenticeship?

Higher apprentices spend up to four years training for a specific role. They finish the scheme dripping in soft skills, specialist knowledge and professional qualifications.

This makes them extremely attractive to future employers, who have been known to

burst into spontaneous song when an ex-higher apprentice walks into an interview.

What are the entry requirements?

Competition for higher apprenticeships is intense. Real intense. Entry requirements vary, but you will need at least two A Levels, graded at 9 to 4 (A* to C), a T Level, or an advanced apprenticeship on your CV to be in with a chance.

Many employers will expect you to have studied subjects relevant to the apprenticeship. Some form of professional experience will also help set you apart from other candidates.

Want to know more? Click/scan for all things Higher Apprenticeships.

CASE STUDY

LEVEL 4/5 HIGHER APPRENTICESHIP

Who: Mackenzie

From: Costain

Position: Safety, Health and Environment (SHE) Apprentice

WHAT MACKENZIE THINKS OF COSTAIN...

I chose a SHE apprenticeship because I wanted to jump straight into a stable career where I was able to earn whilst I learned key working life responsibilities. My original plan was to take the university route, however, I decided this was not for me and declined my place.

“Another tip for working in this industry is to not be afraid of asking “silly” questions, there is always something new you can learn.”

When I arrive at work I respond to any emails I have received and join scheduled calls. Later in the afternoon, I attend site to carry out

informal audits of the scheme so that any issues can be rectified and to promote good practice. I then complete college assignments and revision ahead of the end of point assessments.

I advise that you research careers you are interested in, and try volunteering to get work experience. I did a Health and Safety placement at Northumbria Police to help rule out what I didn't want. I also suggest attending short courses in the subject area of interest; I completed a few short Health and Safety courses with a local training provider.

Clear communication is key as a SHE apprentice in order to get the correct message across to the workforce, and turn negatives into positives. Another tip for working in this industry is to not be afraid of asking “silly” questions, there is always something new you can learn. Finally, involvement with the site team such as foremen, operatives and works managers is beneficial. They will see you in a different light and show interest in your role, meaning they will be more likely to support in audits etc.

www.rma.digital/costain

DO YOU KNOW?

An analysis of the reviews on RateMyApprenticeship.co.uk revealed that the average salary for a degree apprentice was £22,089 in 2021.

What is a degree apprenticeship?

A degree apprenticeship does exactly what it says on the tin; combining studying towards a Bachelor's or Master's degree with paid on-the-job experience.

Schemes are currently available in a vast range of sectors - including forensic science, aerospace engineering and bespoke tailoring - with plenty more in the pipeline.

How do they actually work?

These terrific schemes are designed to give students the best of both worlds. Degree apprentices split their time between working for an employer and studying for a Level 6 (Bachelor's) or Level 7 (Master's) qualification at university.

Not only do degree apprentices earn a proper salary from day one, they don't pay a penny for their degree. The government pays two-thirds of the tuition fees (capped at £18,000), while their employer coughs up the rest.

Why do a degree apprenticeship?

The traditional university student racks up an average debt of £50,000 and often leaves university with little or no work experience at all. In comparison, a degree apprentice graduates with a full degree, zero debt and three to six years of professional experience on their CV.

And whilst employers are struggling to find 'work-ready' graduates, apprentices are trained in the exact skills they need to thrive in the industry. It's a no-brainer really.

What are the entry requirements?

Entry requirements vary between programmes, but they tend to be similar to traditional university courses (3 A Levels graded at A* to C or T Level equivalent).

Most employers also accept applications from school leavers who have completed lower level apprenticeships, with some taking on students with BTEC qualifications.

Click/scan to dive deeper into Degree Apprenticeships.

CASE STUDY

LEVEL 6/7 DEGREE APPRENTICESHIP

Who: Rebecca

From: DWF Law LLP

Position: Solicitor Apprentice

WHAT REBECCA THINKS OF DWF...

I really enjoyed law at college and was interested in pursuing a career in law as a solicitor.

“You will be working with some very experienced people and can gain a lot of knowledge and insight from them, so try to have a positive attitude and be willing to learn.”

I knew I didn't want to go to university and when my law tutor told me about legal apprenticeships, the idea really appealed to me as it offered the opportunity to gain practical work experience and obtain a qualification, as well as the option to progress as a solicitor apprentice.

The first thing I do when I get to work is check my emails to see what tasks I have in store for the day and create a to-do list to make sure I am on top of all of my work and aware of my deadlines.

The aspects of my role I most enjoy are drafting legal documents such as claim forms, particulars of claim and witness statements, meeting new people and learning from experienced solicitors, and having a variety of work to complete on a daily basis as it keeps the job interesting.

Be prepared to work hard, maintain a positive attitude and be willing to learn. It won't always be easy having to study alongside your work but it is very rewarding and if you put the time and effort in, you will reap the rewards. Also, no question is a silly question so don't be afraid to ask if you need help.

My top tips for working as a legal apprentice are to be as organised and prepared as possible. Be a sponge! You will be working with some very experienced people and can gain a lot of knowledge and insight from them, so try to have a positive attitude and be willing to learn.

www.rma.digital/DWF

PROGRAMME GAP YEAR PROGRAMME

DO YOU KNOW?

Around 140,000 young people travel for their gap year; each year with Australia, Thailand and Vietnam being the most popular destinations.

What is a gap year?

A gap year is a chance for you to get some real-life experience before starting university, an apprenticeship or full-time employment.

How does a gap year work?

After all those years in the hamster wheel of education, you're free to do whatever you want with this time. Here's a few ideas:

- **Use your powers for good:** Volunteer for a local charity and pick up a bunch of skills that employers love, such as resilience, emotional intelligence and communication.
- **Start a side hustle:** We've got a whole page on the pros of running your own business - especially during a worldwide pandemic.
- **Get work experience abroad:** Once travel is back on the cards, this is a brilliant way of ticking off your bucket list and kicking off your career at the same time. If you want to stay closer to home, lots of companies in the UK run paid school leaver programmes too.

Why do a gap year?

Gap years these days are less 'Gap Yah', more 'fill-in-the-CV-gaps year'. With competition for top universities and apprenticeships hotting up, savvy gappers are swapping full moon parties for internships, volunteering programs and employment.

You'll also get some breathing space to have a real think about what you want from your future. Are you happy with the degree you've chosen? Is an apprenticeship right for you? You might even find your true calling and decide to dedicate your life to rescuing a particularly rare breed of puffin.

**Craving cultural richness?
Click/scan for more on Gap Years.**

CASE STUDY

GAP YEAR PROGRAMME

Who: Gosia

From: IBM

Position: Futures Gap Year Intern: Talent Acquisition Coordinator

WHAT GOSIA THINKS OF IBM...

I chose the Futures Business Gap Year Placement because the idea of learning, and earning simultaneously, interested me. In all honesty, I wasn't sure which university course I should apply for, so IBM's Futures Placement was a perfect fit! The scheme really allows you to learn from the best – what more could one ask for?

“The aspect of my role I most enjoy is the high level of trust and responsibility I am given every day.”

The first thing I do when I get to work is go through my emails and Slack messages. Then, I usually begin screening applications, contacting candidates and start planning for

my assessment centres. On top of that, I also attend several meetings throughout the day, mostly with my Task Manager, but also with other interns and managers.

Within the Futures Business Placement Scheme, as a Talent Acquisition Coordinator my main responsibilities are contacting and supporting candidates in the application process, creating and managing Excel spreadsheets, running briefings, facilitating assessment centres and giving updates in meetings.

The aspect of my role I most enjoy is the high level of trust and responsibility I am given every day. Being treated like any other employee gives me a sense of belonging and enables me to easily widen my network. At IBM, there are always opportunities to learn something new – this is what makes the placement like no other!

The advice I'd give for a smooth transition from school into work is to familiarise yourself with the role – research recommended skills, what tasks will be part of your daily routine, etc. Moreover, reaching out to current interns and apprentices via platforms like 'LinkedIn' can give you a first-hand insight into the business.

WHAT OPPORTUNITIES DO GSK HAVE IN THIS REGION?

Advanced, Higher and Degree level apprenticeships in Laboratory Science, Data Science, Business and Supply Chain, Manufacturing and Engineering.

ABOUT GSK

GSK's presence in the North East is at Barnard Castle in County Durham. This secondary manufacturing site is one of the largest in our Supply Chain. The site provides global supply and new product introduction for a diverse portfolio of steriles, inhalations and dermatology products.

Our apprentices work across the site in manufacturing, engineering, packaging technology, pharmaceutical technology, laboratory science, project planning, IT and the supply chain providing a diverse range of apprenticeships. The apprentices receive fantastic development opportunities which include off-site events such as Outward Bound in the Lake District, a Resilience week and a Communications week in Hereford,

and a Final Year event at our headquarters working with some of our charitable partners. These events are an exciting opportunity to travel and network with apprentices across GSK.

Our apprentices are fantastic STEM ambassadors and regularly visit schools and colleges to inspire the next generation, from assemblies to careers fairs and contributing to school projects and Industrial Cadets.

The site continues to set stretching challenges for the apprentices. In 2019 the apprentices opened an Early Talent Hub, which had been a derelict cottage. Apprentices took the lead in the project management of the redevelopment - finance, drawing plans, dealing with contractors and procurement.

Thoughts from GSK's apprentices...

"Working at GSK is fantastic! I am very happy to come into work everyday and work alongside exceptionally talented people. I have been given so many opportunities during my apprenticeship and I am excited for what the future holds."

"I am very grateful for the trust and confidence my

teams have invested in me. They have all given me the opportunity to take on responsibility and make the most out of each rotation I have embarked on."

"It is very rewarding knowing how my day-to-day work impacts the patient/consumer at the end of the Supply Chain."

EMPLOYERS &

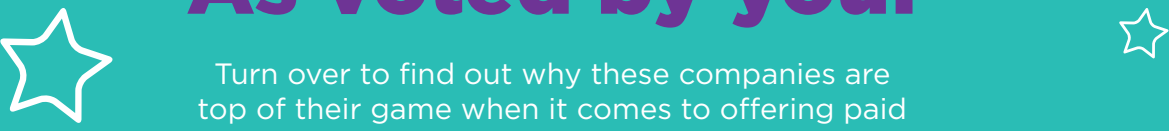

TOP 50

TRAINING PROVIDERS

2021 - 2022

As voted by you!

Turn over to find out why these companies are top of their game when it comes to offering paid apprenticeships and work experience...

HOW IS THE TOP 50 TRAINING PROVIDERS TABLE CREATED?

A 10/10 training provider goes hand in hand with a 10/10 apprenticeship. And these are the best in the business.

1

A school or college leaver writes a review of their apprenticeship or work experience and submits it to

2

They respond to ten questions about their role, the organisation and the social perks of their scheme, ranking each out of ten. (Q2, Q6 & Q7 relate specifically to their training provider.)

3

All reviews are checked by the RateMyApprenticeship team.

4

After the review has been checked, it goes live on the website.

5

Once a training provider has ten reviews, they are eligible for the Top 50.

6

Our digital team plug all the scores from Q2, Q6 & Q7 into an algorithm and voilà, **RateMyApprenticeship's Top 50 Training Providers** is created!

TOP 50 TRAINING PROVIDERS 2022

The people have spoken, and these training providers are the finest in the land for school and college leavers.

ABOUT ACCENTURE

In a nutshell, we develop, deliver and implement big ideas that improve the performance of other companies across a wide range of different industries. This could include anything from working with new technologies and offering better customer experiences to increasing profits. We keep our clients ahead of the game.

Secure a place on one of our apprenticeships and you'll be hands-on from day one, making a real impact and working with industry experts. Because real work demands real pay, you'll receive a competitive salary.

After three years of classroom learning and live project experience, you'll not only have gained an invaluable set of skills, you'll have earned yourself a degree too.

We believe that positive change happens by bringing together different people with diverse experiences and perspectives. If you're interested in technology, have a bright and inquisitive mind, our apprenticeships are yours for the taking.

WHAT YOU NEED TO KNOW

Industry focus: Technology Consulting (IT)

No. of opportunities: 90

Salary per annum: £18,900 - £29,000

Locations: London, Warwick, Newcastle, Manchester and Edinburgh

PROGRAMMES

Higher Apprenticeship

Entry Requirements: 80 UCAS Points + 5 x GCSEs grading 4-9 (A-C) including Maths and English.

Qualifications & Training: BA (Hons) Business Studies and Chartered Manager Status.

Deadline: 31st March 2022.

Degree Apprenticeship

Entry Requirements: Various, check [accenture.com/ukapprentices](https://www.accenture.com/ukapprentices) for details.

Qualifications & Training: All apprentices graduate with a BSc degree in Digital and Technology Solutions, with a specialisation that varies by location.

Deadline: Check [accenture.com/ukapprentices](https://www.accenture.com/ukapprentices)

Technology is changing the world faster than ever before, and when combined with human ingenuity the potential is unlimited.

At Accenture, we believe that bringing together different experiences and perspectives is what drives the most exciting innovation.

Join us for the perfect blend of intensive training and live project experience - and never stop learning new ways to build a better future.

ABOUT ALDI

Arriving in the UK in 1990, Aldi is now the UK's fifth largest supermarket. The things that make us a great retailer also make us a great employer: everyone knows what's expected of them, progression is based on merit and we want to help you achieve personal success.

As an Aldi Apprentice, you are trusted to make real decisions that help deliver the best experience for our customers, and with opportunities in Stores, Logistics and Driving, there's more than one way to succeed here.

Store Apprentices can enter the Programme via two routes as either a Career Starter or a Store Management Apprentice; the Career Starter route allows apprentices with no previous qualifications to work towards a career whilst completing the Retailer Qualification. The Store Management Apprenticeship, which lasts three years, offers a pathway to Management. The Logistics and Drivers Programmes are both one-year programmes based at our Regional Distribution Centres and offer full exposure into the inner workings of the warehouse and transport departments.

WHAT YOU NEED TO KNOW

Industry focus: Retail

No. of opportunities: 892

Salary per annum: £190 - £316 per week depending on the programme

Locations: UK wide

PROGRAMMES

Advanced Apprenticeship

Entry Requirements: Store Management Apprenticeship - GCSEs in Maths and English, grade 4 and above.

Qualifications & Training: Level 2 Retailer, Level 3 Retail Team Leader.

Deadline: Open all year round.

Intermediate Apprenticeship

Entry Requirements: Stores Career Starter and Logistics - no previous qualifications. Driver - GCSEs in Maths and English min. grade 4 or equivalent. Minimum age of 18 and full clean driving licence.

Qualifications & Training: Level 2 Retailer, Level 2 Functional Skills, Level 2 Supply Chain Operative qualification, Category C + E licence.

Deadline: Open all year round.

ABOUT BAM

If you are looking for an exciting and challenging career, our award-winning Technical Apprenticeship programme could be for you! Join us as a Civil Engineering, Construction Management or Quantity Surveying Apprentice and from day one you will be working with an experienced team, and will be able to make an instant contribution to a multimillion pound project.

Alongside working on one of our sites across the UK, our apprentices study on a block release basis at Leeds College of Building. Accommodation is provided for apprentices during their study blocks in Leeds and travel expenses are covered by the company. Apprentices will work towards a Level 4 Higher Apprenticeship, and upon successful completion our apprentices will progress on to a Level 6 Apprenticeship, where they top up their qualification to a Degree.

WHAT YOU NEED TO KNOW

Industry focus: Construction and Engineering

No. of opportunities: 45

Salary per annum: £17,000

Locations: Nationwide

PROGRAMMES

Higher Apprenticeship

Entry Requirements: GCSE Maths and English Grade 5, plus 2 STEM A Levels or a relevant Level 3 qualification.

Qualifications & Training: Level 4 Apprenticeship in Construction and the Built Environment (Civil Engineering, Quantity Surveying or Construction Management).

Deadline: Vacancy is open from Oct to Dec.

“I have thoroughly enjoyed working for BAM and the different opportunities that it has given me. I have always felt welcomed by my fellow colleagues, both on site and in the office.”

Construction Apprentice at BAM, London

Applications for our Technical Apprenticeship programme are now open!

Are you are looking to kick start your career in Construction? We have opportunities throughout the UK for Construction Management, Civil Engineering and Quantity Surveying apprentices to join our business

We are part of Royal BAM Group, one of Europe's leading digital construction companies. Our goal is to create sustainable environments that enhance people's lives.

Here in the UK we have two operating companies, BAM Nuttall, who provide the very best of Civil Engineering and, BAM Construct UK, specialists in construction, facilities management and property.

We want YOU to be a part of our future, help us to stay on top of our game. Leading the way, with the latest digital technology and continuing to create sustainable environments! Sound good?

Apply online today at:
<https://bamcareers.com/gb/campaigns/bam-early-careers/>

Applications close in December, so don't miss out.

ABOUT BARCLAYS

At Barclays, we believe in thinking differently. About the future of banking; about the future of technology in finance; about how a modern business should feel to its colleagues. And about how to find, encourage, develop and grow the people we know will succeed here – and who will help us succeed.

Barclays offers a wealth of opportunities for students from all degree disciplines. All you need is the curiosity and drive to tackle real-world projects that matter and help us to redefine the future of finance. You'll be immersed in our supportive culture, with diverse colleagues to help guide you and build your knowledge.

Whichever programme you choose, you'll start to expand your knowledge of Barclays as an organisation and contribute to real business challenges. Our apprenticeships are refreshingly different. Join us in real, permanent, well-paid jobs – doing real, challenging work from the very start.

Think differently. Think Barclays.

ABOUT BBC

Be part of something special. Join the BBC. The BBC offers work experience and apprenticeship schemes in production, journalism, technology and business areas. As a production apprentice you could be behind the camera or supporting behind the scenes for one of our TV or radio shows. Our Design & Engineering apprentices work on broadcast technology for our news and production teams across the country. From local news to sports updates – our digital journalism apprentices get to tell authentic stories through social media and online. Our business apprentices explore the world of project management and data analysis and learn what really makes the BBC tick.

Working here means you'll be part of something genuinely special. No matter what department you work in, the work that you do will contribute to the shows and content that are enjoyed by millions. Almost everyone in the UK spends time with our content each week and it feels great to be part of something that reaches so many people.

WHAT YOU NEED TO KNOW

Industry focus: Business, Media and Technology

No. of opportunities: 90

Salary per annum: £14,250 - £19,000

Locations: Nationwide

PROGRAMMES

Intermediate, Advanced & Higher Apprenticeship

Entry Requirements: Minimum 5 GCSEs: Maths and English at C or above (or equivalent).

Qualifications & Training: BBC training will help you kick-start your career. Visit our website for more info.

Deadline: Various dates.

Degree Apprenticeship

Entry Requirements: Have at least a 2:1 BSc Honours degree (or international equivalent) in relevant subject to scheme.

Qualifications & Training: BBC Academy training and university course. You will receive a degree at the end of your scheme.

Deadline: Various dates.

MEET EMILY

BBC Apprentice, Emily tells us about her experience so far on the Software Engineering Apprenticeship.

Choosing the right apprenticeship

I wanted to be able to gain a qualification whilst actively learning in a work environment as I am a fairly hands on learner. This scheme is perfect for giving real world experience as well as theoretical knowledge.

The journey so far...

My experience so far has been great! I have been very well supported by the BBC and my university. My team was super welcoming and helpful in teaching me about web development, which I had never done before. I'm now at a level where I contribute and solve problems as a fully-fledged member of the team.

*Make The Moments That
Matter*

Being part of something exciting

I've been a part of the research and design process for an all new component to be rolled out across all BBC World Service websites. Also, I am a STEM ambassador!

Working as a team during a pandemic

We regularly chat casually in Slack, and host Zoom socials so that we can stay in contact and avoid getting lonely. We have also created solutions as a team for new problems that are unique to the pandemic such as 'Zoom fatigue' by having days where we don't have any meetings.

"My experience so far has been great!"

Thinking about applying for an apprenticeship?

Do it! If you're considering it definitely apply for schemes. You can always change your mind later, but an apprenticeship has been the best thing for me.

ABOUT DEFENCE EQUIPMENT & SUPPORT

When you come to DE&S, you're an integral part of a team that helps protect people all over the UK - and overseas too. We do that by providing cutting-edge tech, vehicles and equipment to the Armed Forces. Whether it's the latest protective clothing for soldiers, or the smartest radar for new RAF jets, our projects keep UK military colleagues safe, so that they can protect life at home.

We offer unique apprenticeship schemes in Engineering, Finance and Accounting, Project Management, Corporate Services, Integrated Logistics and IM & IT.

Our schemes offer:

- Great rewards in a diverse and inclusive environment where results are recognised.
- Tailored support throughout your role from a dedicated team who have a genuine interest in helping you develop and succeed.
- A permanent role on successful completion.

JOIN ANN-FERNEE IN HELPING US BUILD THE BANK OF THE FUTURE

At Lloyds Banking Group, we're committed to meeting the changing needs of families, businesses and communities across the UK. Our purpose is to Help Britain Recover, and to make that happen, we rely on the knowledge and expertise of a talented group of people.

People like Ann-Ferne, who joined us as a Data Analyst Apprentice.

What Ann-Ferne loves most about her role is the real impact her work has on customers – taking data and turning it into insights that protect customers from fraud.

If you're as driven as Ann-Ferne is, if you're as passionate about making a real, tangible difference, then we can offer you the chance to make that happen. Not only will you feel challenged and inspired, you'll also be welcomed into an inclusive community that cares about your personal growth and wellbeing too.

ABOUT TRAVIS PERKINS

Ever wondered where a career in Construction could take you? We've been helping to build Britain for over 200 years as a group of some of the building industry's most popular brands. Despite our scale, we keep our local communities at the heart of what we do. Our supportive culture, industry-leading employee benefits and strong focus on colleague wellness are a part of what's allowed us to be recognised as one of Britain's Top Employers since 2010.

Our industry has some huge challenges to tackle over the next few years. The Built Environment currently produces almost 40% of carbon emissions in the UK. We are committed to reducing carbon within our industry by driving the use of modern building techniques and we see young people as a vital part of this change process, coming up with innovative new ideas that will help us to achieve these ambitions. Joining us will give you real opportunities to positively impact our business, and our industry, helping us to build better communities and enrich lives.

ABOUT ABRDN

At abrdn, we empower our clients to plan, save and invest for their futures.

Through the expertise, insight and innovation of our team, we aim to help clients create more ways for money to make an impact. We set our sights on giving them more confidence to achieve their goals, and more clarity about what they need next. And we focus on delivering outcomes that are more than just financial - by investing sustainably to build a better world. We're a global business. We manage and administer £532 billion of assets for our clients, and we have over 1 million shareholders. (Figures as at 30 June 2021).

We are looking for keen futurists to join us on our 2022 trainee programme in Edinburgh or London. Our traineeship programme will help you to grow your knowledge of the world of work, gain work experience within a professional environment and gain a better understanding of our industry. Moving from school or college to the world of work is a unique experience. It is one we understand. It is one we support.

ABOUT GSK

We're exciting minds with our apprenticeship programme – and helping people do more, feel better, live longer. We're a global company delivering billions of innovative products every year, and helping boost the health of hundreds of millions of people worldwide.

There are so many teams you can be part of – which excites you the most? If you're interested in science, you could join us in Laboratory Science, Engineering or join one of our Manufacturing teams. If you're numerate, you could embark on a career in Data Science. Alternatively, you might be drawn to a career in Supply Chain. Our apprenticeships will give you hands-on experience and early responsibility. While you learn on-the-job from industry leaders (and earn a competitive salary), you'll benefit from work events and training courses, whilst studying towards a nationally recognised qualification, which could lead onto further study towards a bachelor's degree or postgraduate qualification.

ABOUT TROUP BYWATERS + ANDERS

Troup Bywaters + Anders is a high-performing engineering partnership delivering high quality building services consultancy across the UK. We provide advice and support with the design, construction, operation and management of our clients' property and assets through a whole life approach.

Our purpose is to be a socially responsible and ethical Partnership that is the best at everything we do. Our ethos is all about passing the baton to those coming through and this starts with our award-winning apprenticeship scheme. We are recognised as one of the best at growing our people through training and development and in 2021 we were the first business globally to be awarded the Investors in People 'We Invest in Apprentices' Platinum accreditation.

Our apprenticeship scheme provides apprentices with the opportunity to become professional engineers on a permanent basis from day one with a route into the industry through a fully supported training and development programme all the way to Chartership.

ABOUT UBS

UBS is the world's largest and only truly global wealth manager. We operate through 4 business divisions: Global Wealth Management, Personal & Corporate Banking, Asset Management and the Investment Bank. Our global reach and breadth of our expertise are major assets that set us apart from our competitors. With more than 70,000 employees, we have a presence in all major financial centers in more than 50 countries.

We believe that the right strategy and a strong culture drive strong performance. And, it's our people who bring that strategy to life. At UBS, we all collaborate. We challenge each other. We act with integrity, respecting and trusting one another. We're responsible for what we do and we want to excel. That's what makes our partnerships with our colleagues and clients successful and long lasting.

It's easy to apply online. Applications for the program open in January and can all be done online through an easy-to-follow process. We hire on a rolling basis so apply as soon as you can.

ABOUT VIRGIN MEDIA

We're Virgin Media. We build connections that really matter. For over 20 years we've grown our business on pioneers and big thinkers – and we remain at the cutting edge of fibre-optic broadband today. Through our multi-award-winning broadband, TV, mobile and home phone services, we connect millions of homes and businesses across the UK and Ireland.

We're well-connected. As of the 1st June 2021, Virgin Media and O2 joined forces combining the UK's largest and most reliable mobile network with a broadband network offering the fastest widely available broadband speeds. We're the corporate brand of a 50:50 joint venture between Liberty Global and Telefónica SA and are now one of the UK's largest businesses.

We're excited about our future. Right now, we're growing every part of our business to connect even more customers to the things and people they care about. We're also continuing to expand our network, delivering the UK's fastest available broadband speed to more customers than ever before.

ABOUT WHITBREAD

As the proud owners of famous brands such as Premier Inn, Beefeater and Brewers Fayre we've got more than 800 hotels and 400 restaurants across the UK.

We know that deciding where to enter the world of work is a big decision. Naturally, your eyes may be set on those first few days but we think it's worth considering the bigger picture too. Like, 'where is this apprenticeship going to take me?' Well, here you'll learn what it takes to carve out a career in hospitality and we'll bring out qualities you never realised you had. Things like social skills that won't just benefit you in work, but in your everyday life too.

We say no to low pay apprenticeships. We will give you a proper wage for the proper job you do in and around your training, giving you your well deserved financial freedom.

We believe in equal opportunity. Our 'No barriers to entry, no limits to ambition' approach means that it doesn't matter where or when you join us in your career, we'll have an apprenticeship for you.
